Dr. José Manuel Rodríguez

Kind regards,

We look forward to seeing you.

...
WILLIAM B. INABNET

Professor of Surgery at the University of Geneva and Head of the Institute of Endocrine Surgery (ESGE) since 2005. He is also a member of the European Society for Endocrine Surgery (ESES) and the French Society of Endocrine Surgery (SFEES).

Dr. Inabnet is an international authority in the field of minimally invasive endocrine surgery and has published more than 150 scientific articles. His scientific work has been recognized by numerous international awards and honors. He is a member of several prestigious medical societies and has served as a guest editor for numerous scientific journals. His contributions to the field of endocrine surgery have been widely acknowledged and he has been invited to speak at numerous national and international conferences.

Dr. Inabnet is an active member of the International Society of Endocrine Surgeons (ISES) and has been involved in the development of several international guidelines for the management of endocrine disorders. He has also been involved in the organization of several international conferences and has served as a member of the scientific committee for many of these events.

Dr. Inabnet is a strong advocate for the use of minimally invasive techniques in endocrine surgery and has been involved in the development of new surgical techniques, such as the use of endoscopic and laparoscopic approaches. He has been instrumental in the development of new surgical techniques for the management of endocrine disorders and has made significant contributions to the field of endocrine surgery.

Dr. Inabnet is also a respected teacher and has been involved in the training of numerous endocrine surgeons. He has been a mentor to many young surgeons and has been instrumental in the development of several new surgical techniques. His contributions to the field of endocrine surgery have been widely acknowledged and he has been invited to speak at numerous national and international conferences.
